

SportsTrak 3000 mobile Help

Connecting SportsTrak 3000 mobile to your sports carnival

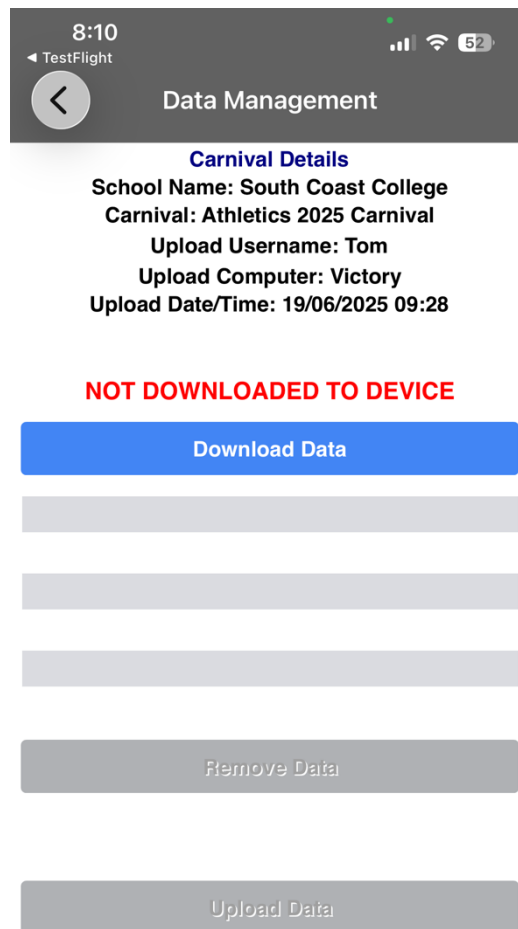

1. Download the SportsTrak 3000 mobile app to your mobile device – it is available from the Google Play & Apple App store.
2. Tap *Scan QR code* on SportsTrak 3000 (ST3K) mobile's menu.

3. Scan the QR code generated by ST3K on a Windows PC. This QR code is generated when setting up the sports carnival and the process uploads required carnival data for ST3K mobile to work.
4. An informational message will display with the School's name, Carnival name & date - tap Yes to accept.
5. Tap *Data Management* on the menu.

6. Tap *Download Data* to download all required information. An informational message will display when the download has completed.

7. The required data is now downloaded to your mobile device - you can begin entering results.
